DATE MAILED: 07/03/2002

Notice of Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2002, 37 CFR 1.18 is proposed to be revised to change the patent issue fees as set forth below. As stated above, the final fees may be a different amount, and applicant should check the web site given above when paying the fee.

(a) Issue fee for issuing each original or reissue patent, except a design or plant patent:

By a small entity (Sec. 1.27(a))--\$655.00

By other than a small entity--\$1,310.00

(b) Issue fee for issuing a design patent:

By a small entity (Sec. 1.27(a))--\$235.00

By other than a small entity--\$470.00

(c) Issue fee for issuing a plant patent:

By a small entity (Sec. 1.27(a))--\$315.00

By other than a small entity--\$630.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

1. Applicant's election without traverse of Group II (claims 28-39 and 67-71) in Paper No. 5 (filed 1/28/02) is acknowledged. Claims 82-91 were submitted on 2/22/02; however, Examiner had not received it until 6/13/02. Thus, the previous office action, mailed 3/13/02, did not reflect to the additional claims 82-91.

2. Thus, claims 28-39, 67-71 and 82-91 are pending for examination, and claims 1-27, 40-66 and 72-81 were canceled.

3. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

II. Claims 28-39 and 67-71, drawn to a system for transparently creating a virtual private network (VPN) between a client computer and a target computer, comprising: a) generating from the client computer a DNS request ..., b) determining whether the DNS ..., c) determining that the DNS ..., classified in Class 709, subclass 249.

IV. Claims 82-91 (similarly to canceled claims 72-81), drawn to a method for establishing an encrypted channel between a client and a secure host, comprising the step of automatically creating the encrypted channel upon intercepting a DNS request

Art Unit: 2153

for a domain name comprising a predetermined domain name extension, classified in Class 713, subclass 201.

4. Inventions II and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a method of registering a node that does not support Mobile IP with a Home Agent that support Mobile IP lacks the step of automatically creating the encrypted channel upon intercepting a DNS request for a domain name comprising a predetermined domain name extension.

5. These inventions are distinct for the reasons given above, and the search required for each Group is different and not co-extensive for examination purpose.

6. For example, the searches for the four inventions would not be co-extensive because these groups would require different searches on PTO's classification class and subclass as following:

1) The Group II search (claims 28-39 and 67-71) would require use of search class 709, subclass 249 (which would not required for the group IV).

Art Unit: 2153

2) The Group IV search (claims 82-91 (similarly to canceled claims 72-81)) would require use of search class 713, subclass 201 (which would not required for the group II).

7. During a telephone conversation with Mr. Bradley C. Wright on June 28, 2002, a provisional election was made without traverse to prosecute the invention of Group II, claims 28-39 and 67-71. Affirmation of this election must be made by applicant in replying to this Office action. Claims 82-91 have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

8. **Examiner's Amendment**

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

9. Authorization for this examiner's amendment was given in a telephone interview with Mr. Bradley C. Wright on June 28, 2002.

10.  **Cancel claims 82-91.**

Art Unit: 2153

11. Claims 28-39 and 67-71 are allowable.
